# Rhinology Workshop

In conjunction with the Endoscopic  
Sinus and Skull Base Surgery Course

Invited Speakers:

Prof Brad Woodworth (USA)  
Prof Richard Douglas (NZ)

Faculty:

Prof Richard Harvey	Dr Raewyn Campbell
Prof Ray Sacks	A/Prof Janet Rimmer
Prof Pete Smith	Prof Stuart Mackay
A/Prof Nick Stow	A/Prof Larry Kalish
A/Prof Yuresh Naidoo	Prof Connie Katelaris
Dr Justin Kong	

August 8th - 9th, 2019

St Vincent's Hospital, Sydney

Proudly Supported by:

## Invited Speakers

Dr. Bradford A. Woodworth is a Professor of Otolaryngology and Adjunct Professor of Neurosurgery at the University of Alabama at Birmingham (UAB) School of Medicine. Professor Woodworth is a surgeon-scientist and academic leader. He serves as an Associate Scientist in the Gregory Fleming James Cystic Fibrosis Research Center where he runs the UAB Rhinology Research Laboratory. He has procured over 3 million dollars in grant funding and was recently awarded a 5 year, \$1.73 million grant from the National Heart, Lung, Blood Institute at the National Institutes of Health to continue his ground-breaking research. Dr. Woodworth has lectured on endoscopic sinus and skull base surgery at numerous national and international venues, published over 150 journal articles and 35 text book chapters, and is the editor of 2 Rhinology textbooks.

Dr. Richard Douglas is a Professor of Otolaryngology at the University of Auckland. Prof Douglas, is a specialist ORL surgeon with clinical and research interests in nasal, sinus and medial skull base conditions. He has a unique background having trained as an immunologist and then retrained as a surgeon. His groups hold several large research grants for further our understanding of the sino-nasal microbiome. Prof Douglas is the current president of the Australian and New Zealand Rhinologic Society.

## Faculty

All surgical members of the faculty have a wide experience in the management of sinus disease and endoscopic surgical techniques. They are joined by leading physicians involved in the management of upper airways disease, who all have academic appointments at major teaching facilities.

## About the Course

The course is aimed at respiratory physicians, immunologists, allergists and other specialities who are interested in the diagnosis and management of upper airways disease. There is a focus on integrated medical and surgical management. Modern concepts of airways disease, inflammatory processes and an evidenced based approach will be discussed. There is a 'hands on' rhinoscopy cadaver lab, on Thursday afternoon, with an instructional session on rigid and flexible endoscopy of the upper airway. Live surgery is planned on Friday morning in conjunction with the broader surgical course. Lectures and discussions will prepare the participants for the two sessions.

## Program

### Thursday 8 August 2019

- 1045 Registration  
Function Room, St Vincent's Clinic
- 1100 Endoscopy - "The Nose and Sinonasal Physiology" - Includes Basic Anatomy
- 1230 Lunch  
Lectures
- 1330 Welcome
- 1335 Integrated Medical and Surgical Topics on Rhinologic Disease, Allergy and the Nasal Airway
- 1600 Afternoon Tea
- 1630 Cadaver Workshop Microsurgical Skills Lab - Rhinoscopy
- 1800 End Day 1

### Friday 9 August 2019

- 0800 Live Surgery  
Function Room, St Vincent's Clinic
- 1000 Morning tea
- 1200 Lunch
- 1300 Rhinoscopy Program Concludes

## Registration

Rhinoscopy Workshop  
In conjunction with The Endoscopic Sinus and Skull Base Surgery Course

St Vincent's Hospital, Sydney

Participant: \$350.00 + GST
